Japanese Government (MONBUKAGAKUSHO) Scholarship

Special Admissions of Master's Course & Doctoral Course at the Graduate School of Engineering Science, Akita University

for Fall 2027

The Graduate School of Science and Engineering has had the MEXT Special Priority Placement Program, which provides Japanese Government Scholarships for international students. **This cross-disciplinary program teaches environmentally conscious design, focusing on decarbonization and green energy.** Targeting international students, mainly from Southeast Asia, it aims to develop future leaders with knowledge in environmental science who will take on leadership roles in their countries and industries. If academic performance is equal, priority will be given to applicants from universities that have an MOU with Akita University.
